

Purpose: To Address and Solve Community Problems

The Major Community Problem: Limited resources for the Under Served...where Most of the Community Problems come from. This opens the door to Destruction in Communities Across the Universe!

Under Served World Consist Of:

Ones Living in Poverty

All Levels of Crime...Especially Those That Are Incarcerated

Prostitution

Hopeless & Uneducated Citizens...Especially Children

Aids and other Diseases

Drug Dealers & Drug Users

Homeless Citizens

There are not enough services set up in the Low country to meet the needs of the under served! They have little or no options so this creates more crimes and challenges to society! Unfortunately, they may end up in crimes or other challenging situations on the streets. These situations often set them up for a life of hopelessness: criminal records, no jobs; on drugs, limited rehabilitation facilities; incarcerated parents or other family members & limited resources. Therefore, they continue doing what they need to do to survive.

**“THE OUTCOME IS ALWAYS NEGATIVE
...THE COUNTRYS’ PROBLEM”!**

* **Our Solution:** The Under Served idolize the Entertainers, so Bailey’s B.A.S.H. has partnered with national celebrities to get the attention of the under served, to help “reverse the curse”! They will bring National Attention/Help to our States’ Issues while giving our organization the opportunity to input our proven strategy to not only Produce Hope, but to provide a place of Refuge to change lives daily.

This will help us to lock down National **Resources** to use them for good by creating more **Opportunities** that will last forever! This Partnership will assist our goals while we present the Celebrity World with the Opportunity to grow even more, through Business, by promoting & branding their craft in SC, with opportunities to Profit at the same time. The Foundation’s Purpose will be met along with Celebrity Partners. Everyone’s happy!

Creating more opportunities for Change has been, and always will be our Foundation’s first goal. We know **Resources** Creates **Opportunities** for **CHANGE** and that alone will create a Major Difference in our Society! Furthermore...if more people had an opportunity to Change...most Will & when they Change, the World will Change with them...Crime Rate & so many other community problems will go down, automatically!

“The funding and building of the Center will provide the multitude of critical services for the continuing Solution”!
